

There are approximately 129 miles of roads on Grand Island, of which 78 miles belong to the Town of Grand Island; the rest are divided up among the Erie County Highway Department, the Department of Transportation and the New York Thruway. If you are not aware of which roads you live on, please refer to the list below submitted for your convenience. Do not be confused in the wintertime, as the Grand Island Highway Department, under contract, plows all County owned roads.
